Subject: RE: Can Rad results

Dan,

The lab informed apologetically that they are backed up with "extreme high volume" in the lab, and promised to send us the data on January 16.

Please let me know if you have any questions.

Thanks,

Ben Nwosu

Dan,

I apologize for not getting back to you sooner. Our contact at Pace lab said we will receive a status update tomorrow. However, they did not indicate that the lab data was ready. We will follow up with the lab when we receive the status update, and only then will I be able to give you a clearer expectation.

Thanks,

Ben Nwosu

Ben,

I was wondering when we can expect to receive the data for the gw samples from Canadian Radium?

Also, please get them into the data validation que as soon as possible.

Thanks,

Dan
